EXPERIENCE

Web Engineer

Jun 2025 – Present

All3D

United States (Remote)

- Built backend services for an AI image generation, editing, and video generation product, implementing the Aurora Serverless data layer and CloudWatch logging for its FastAPI orchestration server.
- Built batch image generation with AWS Lambda to split bulk requests and process each batch through the FastAPI server on EventBridge-scheduled runs; stored outputs in S3 and added bulk image export and downloads.
- Migrated the frontend from React 16 to React 19 with Tailwind CSS, cutting page-load times by 40–60% through code splitting, removing unused dependencies, and optimizing data fetching.
- Automated go-to-market workflows, including data processing, batching, and email verification and validation.

Senior Software Engineer

Jun 2024 – Jun 2025

Strategic Systems International

Lahore, Pakistan

- Owned and enhanced an internal Angular and Ignite UI frontend framework used across 2 client applications.
- Delivered end-to-end full-stack features, from backend APIs to UI.
- Reduced tab-switching time from 3 seconds to under 1 second by resolving an Angular change detection issue.

Software Engineer

Jun 2022 – May 2024

Strategic Systems International

Lahore, Pakistan

- Developed core Intellify platform features using .NET, Node.js, and Angular, including an Excel bulk-import feature that reduced data-entry time by 80%.
- Implemented dynamic list views and caching strategies, reducing page-load times to under 2 seconds.
- Migrated the frontend from Angular 9 to Angular 15 to modernize the application.

Full Stack Software Engineer (Contract)

Oct 2020 – May 2022

Boost 79

Szolnok, Hungary (Remote)

- Led development of a chat app and a P2P parking rental platform with React, React Native, Next.js, and Node.js.
- Set up CI and automated testing for deployments; worked with stakeholders to define scope and deliverables.

Full Stack Web Developer (Intern)

Mar 2021 – Oct 2021

Taps N Clicks

Lahore, Pakistan

- Built an admin dashboard for a video app (React, Node.js, Firebase); cut moderation response from 24h to under 4h.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C#

Frontend: React, React Native, Next.js, Angular, Tailwind CSS, Redux Toolkit

Backend and Data: Node.js, NestJS, FastAPI, .NET, Socket.IO, LangChain, PostgreSQL, MySQL, MongoDB, Redis

Cloud: AWS (Lambda, S3, API Gateway, SQS, EventBridge, Aurora Serverless, CloudWatch), Firebase

Tools: Docker, Bun (testing), Git, GitHub, GitLab, Postman, Claude Code, Codex

SELECTED PROJECTS

DocTalkNow | doctalk-new-delta.vercel.app

Aug 2023 – Jun 2024

TypeScript, Next.js, Tailwind CSS, LangChain, MongoDB

- Built a document chat app with article summarization, audio transcription, and paid subscription plans.

Open Stope (Freelance)

Feb 2021 – Dec 2022

TypeScript, Angular, Node.js, Python, Django, TensorFlow, MySQL

- Developed an automated tool for open stope design and stability prediction using multinomial regression.

EDUCATION

FAST-NUCES

Lahore, Pakistan

Bachelor of Science in Computer Science

Aug 2018 – Aug 2022
